

The ruts we make

Fellowship group questions

These questions are about discipleship at HSBC, and about fellowship groups in general. Remember to be considerate and encouraging in your answers!

- On Sunday Pete was talking about life being a spiritual war. How conscious of this are you? In what areas in particular.
- The battle is with the world, the flesh and the devil. Which of these do you find it easiest to forget? If we live as though we are in 'peacetime', what does that look like in our lives. Can you isolate 1 thing particular for each person?
- Read Hebrews 3v12-13 again. What are the dangers these verses highlight? How do these work out for you as an individual? (please be open and honest)
- The instruction is to 'encourage one another daily'. What does this mean? Practically how can you best do this? How do you as an individual receive encouragement?
- Think about your attitude to fellowship groups. What dangers or ruts do you need to be careful not to fall into?
- How do you feel about the idea of discipleship at HSBC going through a process of change? What would you welcome and struggle with?

Why not spend sometime praying with one another, asking that you would be an encouragement and reminding one another of the gospel that saves us!
